Nature Life

8.9" - 11.6"

PVC and nickel free shoulder bag made of environmentally friendly canvas material

The new DICOTA NatureLife companion offers environmental protection and style in one. Its tough environmentally friendly canvas material not only gives the bag its distinctive look but also makes it robust and extremely hard-wearing. Business style even for allergy sufferers: The bag is 100% PVC and nickel free. High-quality leather and brass trims give the final touches to its stylish design.

The new Nature Life not only wins you over with its exterior but the interior of the bag is also a further highlight. Notebooks ranging up to 11.6" in size can be safely stowed away in its padded main compartment and a leather Notebook strap also ensures that your mobile companion is held in place. Ample space can be found in the main compartment for accessories such as a power supply unit, CDs etc. The zipped front pocket has a well-arranged pen holder and storage space for items that need to be within easy reach such as mobile, keys etc. Documents can be easily and practically stowed away in the specially designed compartment on the back of the Nature Life bag. The adjustable padded leather shoulder strap ensures that the bag is both comfortable and easy to carry on your shoulder.

You can find more information about the nature bags and our cooperation with the Global Nature Fund here
